Re: Proceeding 03-16

Dear Commission Secretary:

I encourage the FCC to permit SBC to offer long distance service in Michigan. SBC has been a very active corporation in the community and have assisted so many families as well as my own in the areas of positive professional communications as well as participating in community activities and events, bridging the corporate world with the community.

As a Senior Citizen Community Activist, I support SBC's efforts to increase their services and provide long distance service to our community. We feel secure and "*at home*" with a company that has rendered service from generation to generation.

Sincerely,

Toni Adams

Toni Adams, Senior Citizen Community Activist
